

StudentHub

Project Overview

StudentHub is a web-based student management portal developed as a semester-long project. The portal provides students with a centralized platform to access academic information such as attendance, assignments, results, notices, timetables, and profile details.

Objectives

- Provide a single platform for academic information.
- Improve communication between students and administration.
- Manage student records efficiently.
- Provide easy access to notices, assignments, and results.

User Roles

Student

- Register and Login
- View Profile
- Check Attendance
- View Assignments
- View Results
- View Timetable
- Read Notices
- Submit Feedback

Admin

- Manage Student Records
- Upload Notices
- Manage Attendance
- Upload Results
- Manage Assignments
- Update Timetable

Project Pages

1. Home (index.html)
2. Login (Login.html)
3. Registration (Register.html)
4. Dashboard (Dashboard.html)
5. Profile (Profile.html)
6. Admin (Admin.html)
7. Events (events.html)
8. FAQ (FAQ.html)
9. Feedback (Feedback.html)
10. Contact (Contact.html)
11. About (About.html)
